

**Subject: Request for technical information and timeline – Swimming pool repair**

Puerto Rico, 20.04.2026

Dear Sirs/Madams,

On behalf of the Asociación Apartamentos Puerto Plata, and in exercise of our right to transparency in the management of the complex, we formally request that you provide us with the following documentation and information regarding the repair of the leak in the swimming pool:

- 1) Detailed quotation/budget and the name of the external company that has been contracted to carry out the works. As co-owners, we are entitled to know which entity is operating on our premises and under what financial conditions.
- 2) Execution timeframe: We request the work schedule and the total estimated duration of the repair once the works begin.
- 3) List of missing materials: We request a specific inventory of the supplies whose delay has led to the suspension of the works.
- 4) Responsibilities: Given the inconvenience this delay is causing the community, we would like to know whether the Administration intends to seek compensation/damages from the contractor due to failure to meet deadlines.

Finally, regarding your notice dated 17 April, you indicate that the repair has been suspended until 30 April. Considering that 1 May is a public holiday and is followed by the weekend, should we assume that the works will not effectively resume until Monday, 4 May?

Given the urgency of the situation and the proximity of the dates indicated, we expect to receive this information as soon as possible.

Sincerely,

**The Board of Directors  
Asociación Apartamentos Puerto Plata**
